

# Once It Every Lifetime – Jem (Jemma Griffiths)

It's time to move out of the darkness  
Use what you feel inside  
Your faith alone will guide you  
Feel the turning tide  
It's n your heart, it's in your soul  
Don't be scared, keep believing  
I know you know, deep inside  
That your time has come  
Once in every lifetime  
If you do believe  
Man can move a mountain  
Change the course of history  
How far we've come  
So far from home  
Trust in your path, you've been chosen  
Become your destiny  
Lead and they will follow you  
Your truth will set you free  
It's n your heart, it's in your soul  
Don't be scared, keep believing  
I know you know, deep inside  
That your time has come  
Once in every lifetime  
If you do believe  
Man can move a mountain  
Change the course of history  
How far we've come  
So far from home  
Once in every lifetime  
If you do believe  
Man can move a mountain  
Change the course of history  
How far we've come  
So far from home
