

# You&Me – Jennie

You know I gotcha  
You know that I got you like that  
Ain't nobody gonna have your back  
Like the way I do  
You love it, just say you do  
You know you got me  
Everything you do, everything you did  
Everything I wish I was with,  
Makes me feel alright  
I'm just saying, so  
I really like it  
Nothin' in the world can make me feel  
The way you do, the things you do  
I really like it  
Nothin' in the world can make me feel  
The way you do, the things you do  
I love you and me  
Dancing in the moonlight  
Nobody can see  
It's just you and me tonight  
I love you and me  
Dancing in the moonlight  
Nobody can see  
It's just you and me tonight  
Look at you, now look at me  
How you ever, ever gonna find  
Someone like this?  
Look at you, now look at me  
How you ever, ever gonna find  
Someone like this?  
You're the reason my heart skips, drops  
Just a little touch, my world stops  
Finally, I know that you're mine  
I don't wanna fall  
Don't wanna play this game of love, oh-eh-oh  
There's nowhere to hide

I really like it  
Nothing in the world  
Can make me feel the way you do,  
The things you do  
I really like it  
Nothing in the world  
Can make me feel the way you do,  
The things you do  
I love you and me  
Dancing in the moonlight  
Nobody can see  
It's just you and me tonight  
I love you and me  
Dancing in the moonlight  
Nobody can see  
It's just you and me tonight  
[Post-Chorus]  
Look at you, now look at me  
How you ever, ever gonna find  
Someone like this?  
Look at you, now look at me  
How you ever, ever gonna find  
Someone like this?
