

Light Your Heart – Jorge Blanco

On the nights streetlights are gone
I'll be the sun, so your dreams can run
Light your heart, yeah
Light your heart up
Light your heart, yeah
Light your heart up

When the waves go take you out
I'll be the sound that drowns the crown
When you get, yeah
When you get down

We're gonna sing, sing, sing
We got this fire in us
That runs deeper than blood
So if you ever doubt
You should know by now

Whatever stars you're looking at tonight
On top of the world or alone inside
I'll always be there for you
I'll always be there for you
Whatever place, no matter where you are
Even when life tries to take your spark
Nothing I wouldn't do
To light your heart
For you, for you
I'll light your heart
For you, for you
I'll light your heart

On the wire just holding on
I'll be the one when the walk is long
Till the dark, yeah
Till the dark falls
Till the dark, yeah

Till the dark falls

Fight for ya when you don't believe
Storm the kingdom and take the keys
Even when you can't see
I'll light your heart

Whatever stars you're looking at tonight
On top of the world or alone inside
I'll always be there for you
I'll always be there for you
Whatever place, no matter where you are
Even when life tries to take your spark
Nothing I wouldn't do
To light your heart
For you, for you
I'll light your heart
For you, for you
I'll light your heart

No matter what tomorrow brings
We got each other through everything
No matter what tomorrow brings
We got each other
We sing, sing, sing

No matter what tomorrow brings
We got each other through everything
No matter what tomorrow brings
We got each other
We sing, sing, sing

I'll always be there for you
I'll always be there for you

Whatever stars you're looking at tonight
On top of the world or alone inside
I'll always be there for you
I'll always be there for you
Whatever place, no matter where you are

Even when life tries to take your spark
Nothing I wouldn't do
To light your heart
For you, for you
I'll light your heart
For you, for you
I'll light your heart
For you, for you

For you, for you
