

# Boatyard – Joss Stone

I'll never see the clouds fall on you,  
Baby tell me how is it what you do  
When the sun shines thru the rainbow  
I know the truth  
Baby you my life I'll wait for you  
At the boat yard we've been waiting  
To the coast guard we've been waving  
Hoping that the rumors aren't true  
I hope you come true  
And I'll never lose you  
I'll never see the clouds fall on you,  
Baby tell me how is it what you do  
When the sun shines through the rainbow  
I know the truth  
Know that all my life I'll wait for you  
Sharp winds are cold and slaving  
No matter how long I'm saving  
Knowing trusting and praying  
I know you'll come through  
And I'll never lose you  
I never see the clouds follow you  
Baby tell me how is it what you do  
When the sun shines thru the rainbow  
I know it's true  
Baby your my life  
I will wait for you  
Uhhhh  
Mhmm  
Will you come through  
Will you be true  
God I miss you  
I see your face  
In this empty space  
I'm never leaving  
Never leaving this space  
OOOhhhhhh

Yeahhhh

I'll never see the clouds fall on you

So baby tell me how is it what you do

When the sun shines through the rainbow

I'll know the truth and baby your my life

I will wait for you

I will wait for you

I've never seen the clouds fall

On you baby

Oh now baby would you tell me how

Would you tell me how

Yeah ooohhh

Say I'll never see the clouds fall on you

They never fall on you (3x)

Baby it's what you do

Is it how you move, Come on babe

I'll never see the clouds fall on you
