## **Boatyard - Joss Stone**

I'll never see the clouds fall on you, Baby tell me how is it what you do When the sun shines thru the rainbow I know the truth Baby you my life I'll wait for you At the boat yard we've been waiting To the coast guard we've been waving Hoping that the rumors aren't true I hope you come true And I'll never lose you I'll never see the clouds fall on you, Baby tell me how is it what you do When the sun shines through the rainbow I know the truth Know that all my life I'll wait for you Sharp winds are cold and slaving No matter how long I'm saving Knowing trusting and praying I know you'll come through And I'll never lose you I never see the clouds follow you Baby tell me how is it what you do When the sun shines thru the rainbow I know it's true Baby your my life I will wait for you Uhhhh Mhmm Will you come through Will you be true God I miss you I see your face In this empty space I'm never leaving Never leaving this space

000hhhhhh

Yeahhhh

I'll never see the clouds fall on you

So baby tell me how is it what you do

When the sun shines through the rainbow

I'll know the truth and baby your my life

I will wait for you

I will wait for you

I've never seen the clouds fall

On you baby

Oh now baby would you tell me how

Would you tell me how

Yeah ooohhh

Say I'll never see the clouds fall on you

They never fall on you (3x)

Baby it's what you do

Is it how you move, Come on babe

I'll never see the clouds fall on you
