

Flame Is Burning – Julia Samoylova

Day and night and all I do is dreaming
Pacing sick and staring at the ceiling
I wish I had the answers
I wish I had a courage to know
Everybody is talking about the reasons
All I wanna do is find the feeling
I wanna feel the power
I wanna go to places
I don't know
If there's a light
Then we have to keep dreaming
If there's a heart
Then we must keep believing...
Inside
Oooh
After the night
There's a light
And in the darkest time
A flame is burning
It shines so bright
Deep in the night
Love is alight
And in the dark
A flame is burning
A flame is burning
All my life I am searching for the meaning
Now I've learned to see that it's believing
I wish I knew where light is
I wish I had the courage to go
If there's a light
Then we have to keep dreaming
If there's a heart
Then we must keep believing...
Inside
After the night
There's a light

And in the darkest time
A flame is burning
It shines so bright
Deep in the night
Love is alight
And in the dark
A flame is burning
A flame is burning
An open window
For love
And let the wind blow
Into the hearts
And we're never apart
And you'll know
After the night
There's a light
And in the darkest time
A flame is burning
It shines so bright
Deep in the night
Love is alight
And in the dark
A flame is burning
A flame is burning
A flame is burning
