

Take Us Back – Kaiser Snap

We were lost there for a while
Didn't see how things could turnaround
All of our feelings were spinning round
Can we go back now
We were young, didn't care too much
We just woke up and we took a shoot
Day by day, that was good enough
Can we go back now
Take us back
To the time we ran away
When the stars lit up our way
Take us back
To the night you asked me over to stay
Now the years kept passing by
Daily struggles gave us a try
And we asked ourselves the question how
Did we end up here
My love for you will never die
I hope you're feeling just the same as I
It is all just a state of mind
Let us go back now
Take us back
To the time we ran away
When the stars lit up our way
Take us back
To the night you asked me over to stay
Take us back
To the time we ran away
When the stars lit up our way
Take us back
To the night you asked me over to stay
