

Addiction – Kasia Moś

Our faith is strong
Bad thoughts are gone
And we will carry on
Your hands are calm
Skin so warm,
Your touch is breaking my walls
Your mama said
You will forget
How I make you feel
One thing we know
When we were close,
Passion is unreal
I've been waiting for you, baby
My body wants to feel you daily
I found the answers to my prayers
You give me something I can't replace
How can we quit relationships
Which make us so complete?
Just stay with me,
Caress my dreams
Till I will lose control
My soul is yours,
We overdose,
Addiction tortures me
Inspire me
Inhale my fears
Ignite all shades of grey
I've been waiting for you, baby
My body wants to feel you daily
I found the answers to my prayers
You give me something I can't replace
No more lies,
I said enough
We will fight for our right
I've been waiting for you, baby
My body wants to feel you daily

I found the answers to my prayers
You give me something I can't replace
This love will always be forever
This love will only make us better
