

Out of Control – Kidburn

Out of control when I'm near you
Feel like a child hanging from your eyes
Burning alive as you touch my hand
Oh love, the things I'd do to you
There is something in your eyes
That I have never seen before
As I hold you in my arms
I realize that you're the one
Out of control
When I'm near you
Out of control
When we touch
Just like the sun
Will the wings of love
A Turning to ashes,
I will carry on
Out of control
When I feel your skin
And the fire deep within you
'Cause every time makes me crazy, my baby
Cause There is something in your eyes
That I have never seen before
As I hold you in the dark
I realize that you're the only one
Out of control
When I'm near you
Out of control
When we touch
Just like the sun
Will the wings of love
A Turning to ashes,
I will carry on
Control
At the moment is close of
And want get it hard of with you
Is it happen in my baby

And feels like a first time
And now gonna shared with you
Out Of control
When I'm near you
Out of control
When we touch
Just like the sun
Will the wings of love
A Turning to ashes,
Baby I will be the one
I will carry on
I've still out of control
