## **Out of Control – Kidburn**

Out of control when I'm near you Feel like a child hanging from your eyes Burning alive as you touch my hand Oh love, the things I'd do to you There is something in your eyes That I have never seen before As I hold you in my arms I realize that you're the one Out of control When I'm near you Out of control When we touch Just like the sun Will the wings of love A Turning to ashes, I will carry on Out of control When I feel your skin And the fire deep within you 'Cause every time makes me crazy, my baby Cause There is something in your eyes That I have never seen before As I hold you in the dark I realize that you're the only one Out of control When I'm near you Out of control When we touch Just like the sun Will the wings of love A Turning to ashes, I will carry on Control At the moment is close of And want get it hard of with you Is it happen in my baby

And feels like a first time And now gonna shared with you Out Of control When I'm near you Out of control When we touch Just like the sun Will the wings of love A Turning to ashes, Baby I will be the one I will carry on I've still out of control
