

Shine On – Kim Wilde & Boy George

I believed love was a temple
Where our prayers were born every day
Precious dreams, forever sacred
Now we feel them slipping away
But here we are
Found ourselves lost in the spaces
Between the moon and the sun
Now our world, fragile and naked
Cries the tears on everyone
So stay with me
Lay with me
Feel our love
Shine on, shine on
Shine on
Every night a little bit longer
Every day a battle for two
Fight against the chemical demons
Who control the fire in you
So stay with me (oh, stay with me)
Lay with me (lay with me)
Feel our love
Shine on, shine on
Shine on
Trust in me (I'll never let you go)
I'll never leave you (ooh, I'll be right
Here beside)
Together we'll
Shine on, shine on
Shine on
Be the light in me
I'll be the light in you
Come back to me (come back darling)
I never want to say goodbye
Come back to me (come back to me)
I just need to see your light shine, oh
I need to touch your face

Together we'll
Shine on, shine on
Shine on
Trust in me (I'll never let you go)
I'll never leave you (ooh, I'll be right
Here beside)
Together we'll
Shine on, shine on
Shine on
I'll never let you
(Ooh, I'll be right here beside)
Together we'll
Shine on, shine on
