## Shine On - Kim Wilde & Boy George

I believed love was a temple

Where our prayers were born every day

Precious dreams, forever sacred

Now we feel them slipping away

But here we are

Found ourselves lost in the spaces

Between the moon and the sun

Now our world, fragile and naked

Cries the tears on everyone

So stay with me

Lay with me

Feel our love

Shine on, shine on

Shine on

Every night a little bit longer

Every day a battle for two

Fight against the chemical demons

Who control the fire in you

So stay with me (oh, stay with me)

Lay with me (lay with me)

Feel our love

Shine on, shine on

Shine on

Trust in me (I'll never let you go)

I'll never leave you (ooh, I'll be right

Here beside)

Together we'll

Shine on, shine on

Shine on

Be the light in me

I'll be the light in you

Come back to me (come back darling)

I never want to say goodbye

Come back to me (come back to me)

I just need to see your light shine, oh

I need to touch your face

Together we'll
Shine on, shine on
Shine on
Trust in me (I'll never let you go)
I'll never leave you (ooh, I'll be right
Here beside)
Together we'll
Shine on, shine on
Shine on
I'll never let you
(Ooh, I'll be right here beside)
Together we'll
Shine on, shine on
