

# Love In Siberia – Laban

I can feel  
Something just ain't right  
I can see  
When you sleep at night  
In your dreams  
There is no way you can find  
Peace of mind  
When we touch  
All the fires burning too much  
I won't let you run down on me  
I watch our love grow  
Turning cold  
Lookin' out for love in siberia  
Gotta look out for love anywhere you are  
Ain't nobody gonna take your love away  
Lookin' out for love in siberia  
Checking out to see what our chances are  
Ain't nobody gonna take our love away  
Could it be  
I just need you more  
Can't you see  
What you got in store  
If you stay  
I will never let you go  
Oh no!  
Try to reach  
Try to hold me tight  
Wanna need  
We must try and fight  
Gettin' cool  
Where we used to be sincere  
Cause we're (cause we are)  
Lookin' out for love in siberia  
Gotta look out for love anywhere you are  
Ain't nobody gonna take your love away  
Lookin' out for love in siberia

Checking out to see what our chances are  
Ain't nobody gonna take our love away  
Lookin' out for love in siberia  
Gotta look out for love anywhere you are  
Ain't nobody gonna take your love away  
Lookin' out for love in siberia  
Checking out to see what our chances are  
Ain't nobody gonna take our love away
