

White Dress – Lana Del Rey

Sun, stare, don't care with my head
In my hands Thinking of a simpler time
Like Sun Ra, feel small
But I Had it under control every time
When I was a waitress
Wearing a white dress
Look how I do this Look how I got this
When I was a waitress
Working the night shift
You were my man Felt like I got this
Down at the men in music business conference
Down in Orlando, I was only nineteen
Down at the men in music business conference
I only mention it 'cause it was such a scene
And I felt seen, mm
Summer, sizzling,
Listening to Jazz out on the lawn
Listening to White Stripes
When they were white hot
Listening to rock all day long
When I was a waitress
Wearing a tight dress Handling the heat
I wasn't famous
Just listening to Kings of Leon to the beat
Like look how I got this
Look how I got this Just sing in the street
Down at the men in music business conference
I felt free 'cause I was only nineteen aaa
Such a scene
Summer's summer's almost gone
We were talkin' 'bout life
We were sitting outside till dawn
But I would still go back
If I could do it all again, I thought
Because it made me feel
Made me feel like a god

'Cause it made me feel
Made me feel like a god
Somehow it made me feel
Made me feel like a god
When I was a waitress Wearing a white dress
Look how I do this Look how I got this
When I was a waitress Working the night shift
You were my man Felt like I got this
Down at the men in music business conference
Down in Orlando, I was only nineteen
Down at the men in music business conference
I only mention it 'cause it was such a scene
And I felt seen, mm
When I was a waitress
Wearing a tight dress
Like look how I do it
Look how I got this
When I was a waitress
Wearing a tight dress
Like look how I do this Look how I got this
Made me feel Made me feel like a god
It kinda makes me feel
Like maybe I was better off
Because it made me feel
Made me feel like a god
Kinda makes me feel
Like maybe I was better off
