

# Aphelios, The Weapon of the Faithful – League of Legends

Awake to my voice  
And hear her call within  
Embrace the fear inside  
Surrender your mind to night again  
Close your eyes  
Have faith in me  
And leave the light behind  
You're never alone  
Whenever it's cold let the shadows take hold  
You're never alone  
Let the poison in  
Feel the warmth arise  
Close your eyes  
Have faith in me  
And leave the light behind  
You're never alone  
Whenever it's cold let the shadows take hold  
You're never alone  
And live within, dreams revealed  
I'm with you, never alone  
Soon you'll be  
Set truly free  
From all those chains you bear  
You're never alone  
And live within, dreams revealed  
I'm with you, never alone
