

# Tidal Waves ( Saved) – Lennon Stella

I'm out here, alone and treading water  
The clear air, tells me there's a storm coming  
I'm not afraid of the dark cloud, gonna wait it out  
Got me racing my heart now and I'm fading out  
I'm waiting to be

Saved By a tidal wave  
Take me away t-t-take me away  
Saved By a tidal wave  
Take me away t-t-take me away  
I'm caught up in the current  
Knowing that I'm certain to be Saved  
Knowing that I'm certain to be Saved  
Knowing that I'm certain

I'm out here, like a message in a bottle  
Can't breathe, I'm sinking down to rock bottom  
I'm not afraid of the dark cloud, gonna wait it out  
Got me racing my heart now and I'm fading out  
I'm waiting to be

Saved By a tidal wave  
Take me away t-t-take me away  
Saved By a tidal wave  
Take me away t-t-take me away  
I'm caught up in the current  
Knowing that I'm certain to be Saved  
Knowing that I'm certain to be Saved  
Knowing that I'm certain

I'm losing hope  
When will you find me, when will you show up  
When will you show up  
When will you show  
I need to know that I'll be

Saved By a tidal wave

Take me away t-t-take me away

Saved By a tidal wave

Take me away t-t-take me away

I'm caught up in the current

Knowing that I'm certain to be Saved

Knowing that I'm certain to be Saved

Knowing that I'm certain to be Saved
