

# Haunt u – lil peep

And I'm making it clear  
Oh, I love you, my dear  
But I'm gone, I'm gone  
I might come back  
When the Benz all black  
Ten racks on my lap  
If I don't relapse and I stay strong  
I could do anything I want to  
Bump Lil Peep when I die, I'ma haunt you  
I could live forever if I want to  
I could stop time, but I never wanna  
Do that again  
Nothing worse than losin' a friend  
And the feeling you get when everybody  
That you love ain't around  
I really gotta get away from this town  
I'm just waiting for a wave and I'll drown  
Satan letting me down  
I just wanna help you see  
You should run away from me  
Baby, I'm a drug, and I don't wanna hurt you  
No, I'm not gonna hurt you, girl not at all  
I ain't gonna set you free  
All you're gonna get from me  
Little bit of love and a little virtue  
If I hurt you, I'll end it all
