

Haunt u – lil peep

And I'm making it clear
Oh, I love you, my dear
But I'm gone, I'm gone
I might come back
When the Benz all black
Ten racks on my lap
If I don't relapse and I stay strong
I could do anything I want to
Bump Lil Peep when I die, I'ma haunt you
I could live forever if I want to
I could stop time, but I never wanna
Do that again
Nothing worse than losin' a friend
And the feeling you get when everybody
That you love ain't around
I really gotta get away from this town
I'm just waiting for a wave and I'll drown
Satan letting me down
I just wanna help you see
You should run away from me
Baby, I'm a drug, and I don't wanna hurt you
No, I'm not gonna hurt you, girl not at all
I ain't gonna set you free
All you're gonna get from me
Little bit of love and a little virtue
If I hurt you, I'll end it all
