

# The way i see things – lil peep

I got a feelin' that I'm not gonna be here  
For next year  
So let's laugh a little before I'm gone  
I've been dreamin' of this shit for a while  
Now Got me high now  
She don't love me, but she's singin' my songs  
(oh no)  
I don't feel much pain  
Got a knife in my back and a bullet  
In my brain  
I'm clinically insane  
Walkin' home alone I see faces in the rain  
Where did all the time go?  
Spend it gettin' high while I hide from the  
Five O  
Where did all the lines go?  
Now, I'm so high I be fuckin' with my eyes  
Closed  
She don't fuck with me no more, I'm on her  
Mind though  
Come and fuck me in the mornin' with the  
Blinds closed  
I can show you everything I learned  
While you were away from me  
Runnin' away from me, but I'm not givin' up  
On you  
It's just the way I be  
It's just the way I see things  
Take her away from me, but I'm not givin' up  
On you, no  
It's just the way I be  
It's just the way I see things
