

Witchblades – lil peep

Switchblades, cocaine
Gothboiclique make a hoe shake
Black fur, black coat
Gothboiclique in the back hoe
Switchblades, cocaine
Gothboiclique till my soul take
Black jeans, half-black hoes
Gothboiclique in the castle

In high school I was a loner
I was a reject, I was a poser
Multiple personalities, I'm bipolar
I swear I mean well, I'm still going to hell
Witchcraft, love chants
Whisper in my ear, put me in a trance
Cocaine all night long
When I die bury with all my ice on
Witchcraft, love chants
Whisper in my ear, put me in a trance
Cocaine all night long
When I die bury with all my ice on

When I die bury me with all my ice on
When I die bury me without the lights on
Lights off, nightlights
Clothes off baby I got good wine
When I die bury me with all my ice on
When I die bury me without the lights on
Lights off, nightlights
Clothes off baby I got good wine

Clothes off baby I got good wine
Tell me a secret, and I'll tell one of mines
I just wanna talk, I don't wanna fight
Ask me if I'm alright, do you want me to lie?
