

# Lipstick On The Glass – Wolf Alice

Ohhhh

It could be exciting

Excuse for a change

If we don't like the way

We weeeere

Ohhhh

But nothing seems inviting

Except the image of

Your open arms

Calling back

To me

I take you baaaaack

Yeah, I know it

Seems surprising

When there's lipstick

Still on the glass

And the full moon rising

But it's me who

Makes myself mad

Mmmm

I take you

Ohhhh

My body does deceive me

Just as did yours

Though we're

Fighting different wars

In our waaaays

Ohhhh

But there's no

Pleasure in this resisting

So go ahead and kiss meeeee

I take you baaaaack

Yeah, I know it

Seems surprising

When there's lipstick

Still on the glass

And the full moon rising  
But it's me who  
Makes myself mad  
Mmmm  
I take you  
Once more  
Once more  
Once  
More  
Once more  
Once more  
Once  
More  
Once more  
You know nothing  
Would've needed deciding  
Had you just simply asked  
But the full moon rising  
And it's me  
I take you baaaack  
Yeah, I know it  
Seems surprising  
When there's lipstick  
Still on the glass  
And the full moon rising  
But it's me who  
Makes myself mad  
Mmmm  
I take you
