

Overcome – Live

Even now the world is bleedin'
But feelin' just fine all numb
In our castle where we're always free
To choose never free enough
To find I wish somethin' would break
Cause we're runnin' out of time
And I am overcome
I am overcome
Holy water in my lungs
I am overcome
These women in the street
Pullin' out their hair
My master's in the yard
Givin' light To the unaware
This plastic little place
Is just a step amongst the stairs
And I am overcome
I am overcome Baby
Holy water in my lungs
I am overcome
So drive me out, out to that open field
Turn the ignition off
And spin around
Your help is here
But I'm parked in this open space
Blockin' the gates of love
I am overcome
I am overcome
Holy water in my lungs
I am overcome
Beautiful drowning
This beautiful drowning
This holy water
This holy water
Is in my lungs
I am overcome

I am overcome
I, I, I am overcome
I am overcome
