

# Million Eyes – Loïc Nottet

Away  
Get away  
You're such a freak  
It's what people said to me  
Different  
Too different  
I'm scared of judgement  
Your insults and your slanders  
Stick on to me  
Yes with your million eyes you're watching me  
You talk behind my back  
You spy on me  
So I scream and shout to make you leave  
But you're still here  
You keep judging me  
With your million eyes  
Drowning  
I'm drowning  
In that clown's mask  
To make you laugh at my thousand flaws  
Alone  
When I'm all alone  
I take my smile off  
But your heartless words have left me scarred  
Cause with your million eyes you're watching me  
You talk behind my back  
You spy on my  
So I scream and shout to make you leave  
But you're still here  
You keep judging me...  
Cause with your million eyes you're watching me  
You talk behind my back  
You spy on my  
So I scream and shout to make you leave  
But you're still here  
You keep judging me with your million eyes

## Eyes

Cause with your million eyes you're watching me

You talk behind my back, you spy on my

So I scream and shout, to make you leave

But you're still here ...

Cause with your million eyes you're watching me

You talk behind my back

You spy on my

So I scream and shout to make you leave

But you're still here

You keep judging me...

Cause with your million eyes you're watching me

You talk behind my back

You spy on my

So I scream and shout to make you leave

But you're still here

You keep judging me
