

# Here with you – Lost Frequencies & Netsky

When I saw you for the first time  
Days were running by  
We were spinning high  
I was lost in every message  
Collecting all your different pieces  
Felt like a secret  
When I saw you for the second time  
Pain slowly dries, love lost its pride  
Be careful as you leave  
And there's enough of giving  
And everybody hurts  
And there's enough of giving  
And everybody hurts  
And there's enough of giving  
And everybody hurts  
And everybody hurts  
When I'm here with you  
When I'm here with you  
When I'm here with you, I feel so confused  
When I'm here with you, I  
Enter the falling, I'm crawling back up  
When I'm here with you, I  
When I'm here with you  
When I'm here with you  
When I'm here with you
