

# Out Of My System – Louis Tomlinson

Slowly, I never wanna go slowly  
I only wanna go faster  
Towards disaster every time  
With me, I know you wanna come with me  
Take anything you can carry  
And leave everythin' else behind  
I am only half of what  
I think I can be  
Gotta get it out of my system  
Gotta get it off of my chest  
I've lived a lot of my life already  
But I gotta get through the rest  
Demons, I'm takin' all of my demons  
Putting them where I won't see them  
'Cause I just wanna feel alive  
I am only half of what  
I think I can be  
Gotta get it out of my system  
Gotta get it off of my chest  
I've lived a lot of my life already  
But I gotta get through the rest  
Gotta get it out of my system, system  
Gotta get it out of my system  
Gotta get it out of my system  
Gotta get it out of my head  
I've lived a lot of my life already  
But I gotta get through the rest  
Gotta get it out of my system, system  
Gotta get it out of my system  
Gotta get it out of my system, system  
Gotta get it out of my system
