

# All I Ever Wanted – Lucca Leeloo

Now I want to live again  
You shine a light through my heart  
You give me hope to face the truth  
Without playing a part  
I'm so full of gratitude  
I can't explain but you're all around  
Surrounding me, I feel so safe  
I'm lost and found  
You're all I ever wanted  
You're all I ever needed  
Gotta wake up and step aside  
To fulfill what's inside  
You're all I ever wanted  
You're all I ever needed  
Gotta wake up and step aside  
To fulfill what's inside  
Can we travel at speed of light  
We can reach beyond this world  
Love is here, just letting go  
My head's in a whirl  
Like a rose is coming out  
Rainbows arise in my mind  
I'll remember, I will embrace  
What I left behind  
You're all I ever wanted  
You're all I ever needed  
Gotta wake up and step aside  
To fulfill what's inside  
You're all I ever wanted  
You're all I ever needed  
Gotta wake up and step aside  
To fulfill what's inside  
You're all I ever wanted  
You're all I ever needed  
Gotta wake up and step aside  
To fulfill what's inside
