

Wild West – Luna

Wild West,
I'm turning on the radio
I'm shutting out the noise
It's time to let it go
I try to find a piece of me
Among the words and everything
I try to feel
I have to open up my eyes
Welcome to the real wild west
Better keep your cards up in the chase
No one's gonna hear in this a waste
Life will always put you to the test
No time to rest
Wild west
(-----)
I'll play the game
A like a fool
But you will never know how
I'm about to move
I'll guard my heart
I'll keep it safe
Standing in the light
You better get out of my way
I have to open up my eyes
Welcome to the real wild west
Better keep your cards up in the chase
No one's gonna hear in this a waste
Life will always put you to the test
No time to rest
Wild west
(-----)
West, Wild west
Ghost town,
Rain cloud,
Lost mind,
Meltdown,

Wasteland,
Dry sand,
Pink sky,
So grand,
Ghost town,
Rain cloud,
Last night,
Meltdown,
First guest
Say yes,
No rest,
Wild west

(-----)

Welcome to the real wild west
Better keep your cards up in the chase
No one's gonna hear in this a waste
Life will always put you to the test
No time to rest
Wild west

(-----)

No time to rest
Wild west
