Fear for Nobody – Måneskin

I don't envy, I will survive
And I've been begging and begging myself
Please don't close your eyes
I don't have tears, I cried it all
I heard a voice that's inside me
She says, "Please state what you want"
And I've been begging you, begging you
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
But
I have no fear for no-
I have no fear for nobody
I have no fear for nobody
I have no fear for nobody, nobody now
I have no fear for nobody
I have no fear for nobody
I have no fear for nobody, nobody now
I'm staying here and I'm not lyin'
And I've been beating on, beating on my chest
I'm ready to fight
This is not a dream, this is the truth
This is my story and I count it
We don't give a fuck 'bout you
But I've been begging you, begging you
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
But
I have no fear for no-

I have no fear for nobody
I have no fear for nobody
I have no fear for nobody, nobody now
I have no fear for nobody
I have no fear for nobody
I have no fear for nobody, nobody
'Cause I'm begging you, begging you
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
Please show me, please show me why
Am I begging you, begging you?
But
I have no fear for nobody
I have no fear for nobody
I have no fear for nobody, nobody now
I have no fear for nobody
I have no fear for nobody
I have no fear for nobody, nobody now
