

# Cara Mia – Måns Zelmerlöw

Who's gonna love you?  
Who's gonna take my place  
And stand by your side?  
Kiss you and hold you  
Console you when you cry?

I'll always love you, I know  
Baby, don't go

Come closer, cara cara mia  
Cara cara mia, love is all we need  
I swear I'm never gonna leave you,  
Cara cara mia  
You're the one for me  
When someone loves like I do  
Dreams can come true  
So tell me, tell me now  
Oh, cara cara mia, cara cara mia  
How can you leave me now?

Make me believe you  
So hard for me to understand what went wrong  
I've been so certain  
Our love was always strong

Baby, we can't move apart  
You're breaking my heart

Come closer, cara cara mia  
Cara cara mia, love is all we need  
I swear I'm never gonna leave you,  
Cara cara mia  
You're the one for me  
When someone loves like I do  
Dreams can come true  
So tell me, tell me now

Oh, cara cara mia, cara cara mia  
How can you leave me now?

We can be happy again  
Don't you feel that it's burning inside,  
Burning inside?  
We can't give up on each other  
I want us to try  
Before we say goodbye

Come clo-ser, cara cara mia  
Cara cara mia, love is all we need  
I swear I'm never gonna leave you,  
Cara cara mia  
You're the one for me  
When someone loves like I do  
Dreams can come true  
So tell me, tell me now  
Oh, cara cara mia  
Can you leave me now?  
Cara cara mia  
Can you leave me now?
