

# Fire in the rain – Måns Zelmerlöw

I remember you and me  
Before we knew our destiny  
Never walked the road before  
Though you longed to search for more  
We put everything aside  
With our futures on the line  
I could say it's 'cause of you  
You showed the dream we walked into

I saw the danger on the way  
But with you it seemed okay

Cause when the evening comes  
We're like fire in the rain  
When the night's begun  
Our desire heals the pain  
And the dreams we share  
They are never gonna fade  
It's because of love  
We're standing here today

We're like fire in the rain  
Like fire in the rain

I remember every night  
I gave my hope, you gave your life  
We could mend our every scar  
Just by looking at the stars  
In my mirror I saw you  
Everything I need to see  
That reflection set me free

Cause when the evening comes  
We're like fire in the rain  
When the night's begun  
Our desire heals the pain

And the dreams we share  
They are never gonna fade  
It's because of love  
We're standing here today

We're like fire in the rain  
Like fire in the rain  
Like fire in the rain  
Like fire in the rain

When the evening comes  
We're like fire in the rain  
When the night's begun  
Our desire heals the pain  
And the dreams we share  
They are never gonna fade  
It's because of love  
We're standing here today

Cause when the evening comes  
We're like fire in the rain  
When the night's begun  
Our desire heals the pain  
And the dreams we share  
They are never gonna fade  
It's because of love  
We're standing here today

We're like fire in the rain  
Like fire in the rain  
Like fire in the rain  
Like fire in the rain
