

# Don't call me up – Mabel

When I'm underneath the bright lights

When I'm tryin' have a good time

'Cause I'm good now you ain't mine

Naw nah nah nah,

Don't call me up

When you're looking at my photos

And getting hot, losing control

You want me more now

I let go

Naw nah nah nah

I'm over you and I don't need your lies no more

'Cause the truth is without you, boy, I'm stronger

And I know it's sad that I changed, have a cold heart

But it was your game that left scars,

Ooh I'm over you

Don't call me up

I'm going out tonight

Feeling good now you're outta my life

Don't wanna talk about us

Gotta leave it behind

One drink and you're outta my mind

Naw nah, take it up

Baby, I'm on a high

You're alone, going out of your mind But

I'm here out in the club

And I don't wanna talk

So don't call me up

'Cause I'm here looking fine, babe

And I got eyes looking my way

And everybody's on my vibe, babe

Naw nah nah nah,

Don't call me up

My friends said you were a bad man  
I should have listened to them back then  
And now you're tryna hit me up again  
Naw nah nah nah  
I'm over you and I don't need your lies no more  
'Cause the truth is without you, boy, I'm stronger  
And I know it's sad that I changed, have a cold heart  
But it was your game that left scars,  
Ooh I'm over you  
Don't call me up  
I'm going out tonight  
Feeling good now you're outta my life  
Don't wanna talk about us  
Gotta leave it behind  
One drink and you're outta my mind  
Naw nah, take it up Baby,  
I'm on a high  
You're alone, going out of your mind  
But I'm here out in the club And  
I don't wanna talk  
So don't call me up  
Don't call me up  
So don't call me up Don't call me up  
I'm over you and I don't need your lies no more  
'Cause the truth is without you, boy, I'm stronger  
And I know it's sad that I changed, have a cold heart  
But it was your game that left scars, ooh  
I'm over you  
Don't call me up  
I'm going out tonight  
Feeling good now you're outta my life  
Don't wanna talk about us  
Gotta leave it behind One drink and you're outta my mind  
Naw, nah, take it up Baby,  
I'm on a high  
You're alone, going out of your mind  
But I'm here out in the club  
And I don't wanna talk  
So don't call me up
