Don't call me up - Mabel

When I'm underneath the bright lights
When I'm tryin' have a good time
'Cause I'm good now you ain't mine
Naw nah nah nah,
Don't call me up
When you're looking at my photos
And getting hot, losing control
You want me more now
I let go
Naw nah nah nah

I'm over you and I don't need your lies no more 'Cause the truth is without you, boy, I'm stronger And I know it's sad that I changed, have a cold heart But it was your game that left scars, Ooh I'm over you

Don't call me up
I'm going out tonight
Feeling good now you're outta my life
Don't wanna talk about us
Gotta leave it behind
One drink and you're outta my mind
Naw nah, take it up
Baby, I'm on a high
You're alone, going out of your mind But
I'm here out in the club
And I don't wanna talk
So don't call me up

'Cause I'm here looking fine, babe And I got eyes looking my way And everybody's on my vibe, babe Naw nah nah nah, Don't call me up My friends said you were a bad man

I should have listened to them back then

And now you're tryna hit me up again

Naw nah nah nah

I'm over you and I don't need your lies no more

'Cause the truth is without you, boy, I'm stronger

And I know it's sad that I changed, have a cold heart

But it was your game that left scars,

Ooh I'm over you

Don't call me up

I'm going out tonight

Feeling good now you're outta my life

Don't wanna talk about us

Gotta leave it behind

One drink and you're outta my mind

Naw nah, take it up Baby,

I'm on a high

You're alone, going out of your mind

But I'm here out in the club And

I don't wanna talk

So don't call me up

Don't call me up

So don't call me up Don't call me up

I'm over you and I don't need your lies no more

'Cause the truth is without you, boy, I'm stronger

And I know it's sad that I changed, have a cold heart

But it was your game that left scars, ooh

I'm over you

Don't call me up

I'm going out tonight

Feeling good now you're outta my life

Don't wanna talk about us

Gotta leave it behind One drink and you're outta my mind

Naw, nah, take it up Baby,

I'm on a high

You're alone, going out of your mind

But I'm here out in the club

And I don't wanna talk

So don't call me up
