

Survive - Performance by Autumn Miller – Madilyn Bailey

All the way down, finding my way around
Stars and night to cover me
Back and forth searching for my way north
Unbroken ground I'm wandering

Love is around, love is around baby
Tryna get out, tryna be found and maybe
I've gotta get lost to get where I'm going

Like roses we're only here for a moment
Ashes to ashes,
Mountains will always need to be climbed
But we only go one foot at a time

Our voices tryna be more than just noises
Echo to echo,
Nobody gets to leave here alive
Don't just survive, don't just survive

Heaven and hell dancing inside myself
Music plays like a symphony
Eb and flow, battles they come and go
There's calm inside the catastrophe

Love is around, love is around baby
Tryna get out, tryna be found and maybe
I've gotta get lost to get where I'm going

Like roses we're only here for a moment
Ashes to ashes,
Mountains will always need to be climbed
But we only go one foot at a time

Our voices tryna be more than just noises
Echo to echo,

Nobody gets to leave here alive
Don't just survive, don't just survive
Nobody gets to leave here alive
Don't just survive, don't just survive
