

# Survive - Performance by Autumn Miller – Madilyn Bailey

All the way down, finding my way around  
Stars and night to cover me  
Back and forth searching for my way north  
Unbroken ground I'm wandering

Love is around, love is around baby  
Tryna get out, tryna be found and maybe  
I've gotta get lost to get where I'm going

Like roses we're only here for a moment  
Ashes to ashes,  
Mountains will always need to be climbed  
But we only go one foot at a time

Our voices tryna be more than just noises  
Echo to echo,  
Nobody gets to leave here alive  
Don't just survive, don't just survive

Heaven and hell dancing inside myself  
Music plays like a symphony  
Eb and flow, battles they come and go  
There's calm inside the catastrophe

Love is around, love is around baby  
Tryna get out, tryna be found and maybe  
I've gotta get lost to get where I'm going

Like roses we're only here for a moment  
Ashes to ashes,  
Mountains will always need to be climbed  
But we only go one foot at a time

Our voices tryna be more than just noises  
Echo to echo,

Nobody gets to leave here alive  
Don't just survive, don't just survive  
Nobody gets to leave here alive  
Don't just survive, don't just survive
