

# Sweet Relief – Madison Beer

Please leave, Godspeed  
I can't be around you right now, don't speak  
It's a problem, it's addictive, I need  
You to listen to me, baby, listen to me  
Take me high (take me high)  
Lay me down (lay me down)  
It's so reckless of me,  
but this feeling is deeply profound  
It's just something only we know  
Baby, I can't help myself  
I'm seeing you everywhere I go  
I don't dream of anyone else  
All I need, sweet relief  
It's just something only we know  
Something only we know  
Can't eat, can't sleep  
No, you're not making this easy on me  
It's a problem that we're choosing to be  
No, we won't let them see  
Take me high (high)  
Lay me down (lay me down)  
It's so reckless of me,  
But this feeling is deeply profound  
It's just something only we know (we know)  
Baby, I can't help myself  
I'm seeing you everywhere I go  
I don't dream of anyone else  
All I need, sweet relief  
It's just something only we know  
Something only we know  
Something only we know  
Something only we know  
All I need, sweet relief  
It's just something only we know  
Something only we know
