

# Bright – Madison Reyes, Charles Gillespie, Owen Joyner, Jeremy Shada

Sometimes I think I'm falling down  
I wanna cry, I'm calling out  
For one more try to feel alive  
And when I feel lost and alone  
I know that I can make it home  
Fight through the dark and find the spark  
Life is a risk, but I will take it  
Close my eyes and jump  
Together, I think that we can make it  
Come on, let's run  
And rise through the night, you and I  
We will fight to shine together,  
Bright forever  
And rise through the night, you and I  
We will fight to shine together,  
Bright forever  
In times that I doubted myself  
I feel like I needed some help  
Stuck in my head with nothing left  
I feel something around me now  
So unclear, lifting me out  
I found the ground  
I'm marching on  
Life is a risk, but we will take it  
Close my eyes and jump  
Together, I think that we can make it  
Come on, let's run  
And rise through the night, you and I  
We will fight to shine together,  
Bright forever  
And rise through the night, you and I  
We will fight to shine together,  
Bright forever  
In times that I doubted myself  
I feel like I needed some help

Stuck in my head with nothing left  
And when I feel lost and alone  
I know that I can make it home  
Fight through the dark and find the spark  
And rise (rise) through the night  
(through the night)  
You and I (you and I)  
We will fight to shine together  
(we will shine together)  
Bright forever (bright forever)  
And rise (rise) through the night  
(through the night)  
You and I (you and I)  
We will fight to shine together  
(we will shine together)  
Bright forever
