

# Everything Will Be Alright – Magda Zdroik

I know it's hard to see  
When everything's falling apart  
But don't you give up on me  
We'll find a way to restart  
I know you're feeling lost  
And you don't know what to do  
But I'll be there at any cost  
To help you make it through  
Everything will be alright  
We'll make it through the night  
Together we'll find the light  
And we'll be alright  
Everything will be alright  
We'll make it through the night  
Together we'll find the light  
And we'll be alright  
We'll face the storm together  
And we'll come out stronger  
We'll hold on to each other  
And we'll make it last longer  
Everything will be alright  
We'll make it through the night  
Together we'll find the light  
And we'll be alright  
Everything will be alright  
Everything will be alright  
Everything will be alright  
Just hold on tight  
Everything will be alright  
We'll make it through the night  
Together we'll find the light  
And we'll be alright
