

# In the world of dream – Magda Zdroik

In the world of dreams  
Everything's just as it seems  
Fantasies come to life  
And troubles fade like a knife  
We can fly through the sky  
Or swim with dolphins nearby  
The limits are only our minds  
As we leave reality behind  
In the world of dreams we're free  
To be whoever we want to be  
Our imagination takes flight  
As we close our eyes at night  
In the world of dreams  
Our hopes are never too extreme  
We can conquer any fear  
And shed a joyful tear  
The impossible becomes real  
As we let go and just feel  
The magic that's all around  
As we explore every sound  
In the world of dreams we're free  
To be whoever we want to be  
Our imagination takes flight  
As we close our eyes at night  
But alas, we must awake  
And leave the world we did make  
The memories linger on  
And make us feel less alone  
We know we'll visit again  
And make some new dreams to befriend  
The world of dreams is where we feel  
Most alive, most human, most real
