

# It's our planet! – Magda Zdroik

In a world of green and blue  
Underneath the sky so true  
Nature's beauty all around  
Let's protect this sacred ground  
For the earth  
We'll take a stand  
Hand in hand  
We'll heal the land  
Reduce  
Reuse  
And recycle too  
It's our planet  
It's up to me and you  
Forests tall, rivers wide  
Ecosystems, side by side  
Creatures of the land and sea  
In harmony, we all should be  
For the earth  
We'll take a stand  
Hand in hand  
We'll heal the land  
Reduce  
Reuse  
And recycle too  
It's our planet  
It's up to me and you  
Clean the air, clear the skies  
In the future, let's be wise  
Solar power, wind's embrace  
Sustainable, we'll find our place  
For the earth  
We'll take a stand  
Hand in hand  
We'll heal the land  
Reduce  
Reuse

And recycle too  
It's our planet  
It's up to me and you  
Oceans deep, coral reefs  
In our care, there's no relief  
Plastic waste, we'll make amends  
For a world that never ends  
For the earth  
We'll take a stand  
Hand in hand  
We'll heal the land  
Reduce  
Reuse  
And recycle too  
It's our planet  
It's up to me and you  
In a world of green and blue  
Underneath the sky so true  
Nature's beauty all around  
Let's protect this sacred ground  
For the earth  
Hand in hand  
We'll heal the land  
Reduce  
Reuse  
And recycle too  
It's our planet  
For the earth  
We'll take a stand  
Hand in hand  
We'll heal the land  
Reduce  
Reuse  
And recycle too  
It's our planet  
It's up to me and you
