

Make It Home – Maia Reficco

How did I get here?
I'm so scared, lost in mid-air
I feel, feel so small
Like no one sees me at all
Now, I don't understand this world
A world with so many open spaces
But nowhere that I fit
Where do I belong?
I'm out here like a kite just floating
All alone under the clouds
All alone without a sound
I know where I come from
But I don't know where I am going
Will I ever make it home?
Will I ever make it home?
I can't catch my breath
I'm searching for a place to rest
But here between the earth and the stars
I'm stranded somewhere in the middle
But nowhere that I fit
Where do I belong?
I'm out here like a kite just floating
All alone under the clouds
All alone without a sound
I know where I come from
But I don't know where I am going
Will I ever make it home?
Will I ever make it home?
Will I ever make it home?
Make it home
Just like a kite out a window
I'm gonna go where the wind blows
I'm gonna find my way home
Where do I belong?
Oh-oh-oh-oh
All alone under the clouds

All alone without a sound
I know where I come from
But I don't know where I am going
Will I ever make it home?
Will I ever make it home?
Will I ever make it home?
Make this place home
