

# So Long – MALFA

I don't even know the time  
When I saw you baby  
When I took my single chance  
With my heart and lost it  
And you were more than pretty lover  
And it was more to be forgotten  
U didn't have any rules  
And now I know what it means

So long  
I don't need nobody  
So long  
Ever since I loved u  
So long  
I don't need nobody  
So long  
Ever since I loved u

I keep having my same dream  
That one day you'll call me  
And I'll take my second chance  
With my heart and I'll win it  
Cuz you were more than just a number  
And it was more to be so far from  
But u were running from me  
And now I know what it means  
So long  
I don't need nobody  
So long  
Ever since I loved u  
So long  
I don't need nobody  
So long  
Ever since I loved u
