

Ev'ry Night – Mandaryna

I wanna say to you now
How I feel when you're away
And you're not in my arms
This is gonna make me think
How my life would go on
If you don't come back to me
Can't you see, what you do
When you act like you do
Now think again
Show me you care
I want to be
With you alone

Let us be together
Baby give me ev'ry night
Ev'ry night I want you

Let us be forever
Baby give me ev'ry night
Ev'ry night I want you

Let us be together
Baby give me ev'ry night
Ev'ry night I want you

Let us be forever
Baby give me ev'ry night
Till the end of time

You look at me in a way
As if you would fall apart
And I say that I know
What is really in your heart
Don't be shy let me know
What you have to say to me
I will be close to you

Each and ev'ry day
So now think again
Show me you care
I want to be
With you alone

Let us be together
Baby give me ev'ry night
Ev'ry night I want you

Let us be forever
Baby give me ev'ry night
Ev'ry night I want you

Let us be together
Baby give me ev'ry night
Ev'ry night I want you

Let us be forever
Baby give me ev'ry night
Till the end of time

Now think again
Show me you care
I want to be
With you alone

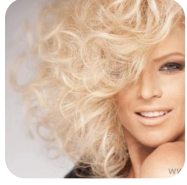

Let us be together
Baby give me ev'ry night
Ev'ry night I want you

Let us be forever
Baby give me ev'ry night
Till the end of time

Let us be together
Baby give me ev'ry night
Ev'ry night I want you

Let us be forever

Baby give me ev'ry night
Till the end of time
