

Tempo – Margaret

You and me
Got that some kind of chemistry

Like we that perfect recipe
And we headed for trouble

Oh you and me
Snacking on that forbidden tree

Boy I think it's our destiny
That we conquer this jungle

There's a tiger inside my body
And it's finally running loose

Whenever I feel you on me
Oh I just gotta move

Let me be your tempo tempo
Let me take you way low way low

Gonna go my pace
Put you in that mood

Boy you go boom boom
Let me be your tempo tempo
Don't you ever let go let go

Hands around my waist
You feeling my groove
Boy you go boom boom boom

Usually
I'm so into the melody
I forget the intensity
Of that rhythmic persuasion

But suddenly
You becoming my remedy
And I know that you're getting me
all of these good vibrations

There's a tiger inside my body
And it's finally running loose

Whenever I feel you on me
Oh I just gotta move
Let me be your tempo tempo
Let me take you way low way low

Gonna go my pace
Put you in that mood
Boy you go boom boom

Let me be your tempo tempo
Don't you ever let go let go
Hands around my waist
You feeling my groove
Boy you go boom boom boom
Tempo

Wanna feel that rush no no
Come and give it
Keep up the keep up the
I can't get enough no no
Keep up the keep up the tempo
Wanna feel that rush no no
Come and give it
Keep up the keep up the
I can't get enough no no
Keep up the keep up the tempo

Cause there is no way you could be taming this fire

Let me be your tempo tempo
Don't you ever let go let go

Hands around my waist
You feeling my groove
Boy you go boom boom
Tempo

Wanna feel that rush no no
Come and give it
Keep up the keep up the
I can't get enough no no
Keep up the keep up the tempo

Wanna feel that rush no no
Come and give it
Keep up the keep up the
I can't get enough no no
Keep up the keep up the tempo
