

# What You Do – Margaret

I, I've been looking for a while  
Been searching for a sign  
And trying to ignite  
I, I'm chasing high and low  
Not knowing where to go  
This could be a bumpy ride

When you fade all away  
What you do? What you do?  
Fade away, hate to say  
So what you do? What you do?  
Raising up, ladder ladder  
Turn it up higher, higher  
When you fade all away  
What you do? What you do?  
What you do? What you do?

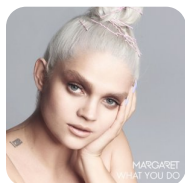

You, you don't wanna be alone  
Hiding in a safety zone  
Tell me what is on your mind, yeah  
You wear your head up in the clouds  
Won't you hang on and be proud  
So come on and light the stars

When you fade all away  
What you do? What you do?  
Fade away, hate to say  
So what you do? What you do?  
Raising up, ladder ladder  
Turn it up higher, higher  
When you fade all away  
What you do? What you do?  
What you do? What you do?

Ooo, look at me, look at me  
Ooo, I want for you making dreams

If you want it, you take it  
Look at mine, all the lullaby singing  
Ooo

When you fade all away  
What you do? What you do?  
Fade away, hate to say  
So what you do? What you do?  
Raising up, ladder ladder  
Turn it up higher, higher  
When you fade all away  
What you do? What you do?  
What you do? What you do?
