

# Steep Road – Medicine Strings

1 You were the one I was dreaming about  
And You were forever, so that I fought  
And You knew I can do anything  
Just to be so near,  
Just to be Your thing  
You were sure, that I will dying  
And You were sure I will bleeding and crying,  
That I am over and I will sinking -  
If that; what's on Your mind - just stop thinking!

I'm standing here and I look in Your eyes,  
I see how You changed so I can supposed -  
I wasn't the one who was bleeding

R: Rebirth was steep road from the hell  
So You can't think that You created me  
And If You've done anything to help,  
Yea, You did one thing - You made me dead  
Rebirth was steep road from the hell  
So You can't think that You created me  
And If You've done anything to help,  
Yea, You did one thing - You made me dead

2 How can it be - now You look at me,  
Why You feel grudge of thinks that I did,  
Just like I should let myself crush,  
Shouldn't catch the edge  
Waiting for the flash  
I never fought You're covard like no other,  
Now I am sure and You're discovered  
I hope now You see everything clear -  
Like Your true face, not things You want to see

I'm standing here and I look in Your eyes,  
I see how You changed so I can supposed -  
I wasn't the one who was bleeding

R: Rebirth was steep road from the hell  
So You can't think that You created me  
And If You've done anything to help,  
Yea, You did one thing - You made me dead  
Rebirth was steep road from the hell  
So You can't think that You created me  
And If You've done anything to help,  
Yea, You did one thing - You made me dead

I'm standing here and I look in Your eyes,  
I see how You changed so I can supposed -  
I wasn't the one who was bleeding

R: Rebirth was steep road from the hell  
So You can't think that You created me  
And If You've done anything to help,  
Yea, You did one thing - You made me dead  
Rebirth was steep road from the hell  
So You can't think that You created me  
And If You've done anything to help,  
Yea, You did one thing - You made me dead
