

Paradise – Meduza ft. Dermot Kennedy

Mmm-mmm-mmm-mmm

In the fading light, hearts collide

Shadows dance in the distance

Something just ain't right, I'm cold inside

Help me find what I'm missing

We're all scared to fly, still we try

Learn to be brave, see the other side

Won't you lead me there? Have no fear

Close your eyes, find paradise

Oh, my, my, my

There's a thousand miles between you and I

Oh, my, my, my (my, my, my)

Just a thousand miles between me and paradise

Oh, my, my, my (my, my, my)

There's a thousand miles between you and I

Oh, my, my, my (my, my, my)

Just a thousand miles between me and paradise

Oh (paradise), oh, my, my, my

Oh (paradise), oh, my, my, my

Oh (paradise), oh, my, my, my

Just a thousand miles between me and paradise

When the dark has gone, the morning's won

We're gonna feel something different

It will set you free, if you just tell me

Every secret, I'll listen

We're all scared to fly, still we try

Learn to be brave, see the other side

Won't you lead me there? Have no fear

Close your eyes, find paradise

Paradise, paradise

Close your eyes, find paradise

Paradise, paradise

Close your eyes, find para-

Oh, my, my, my

There's a thousand miles between you and I

Oh, my, my, my (my, my, my)

Just a thousand miles between me and paradise

Oh, ah, oh, my, my, my

Oh, ah, oh, my, my, my

Oh, ah, oh, my, my, my

Just a thousand miles between me and paradise
