

# Paradise – Meduza ft. Dermot Kennedy

Mm, mm

Mm, mm-mm-mm

[Verse 1]

In the fading light, hearts collide

Shadows dance in the distance

Something just ain't right, I'm cold inside

Help me find what I'm missin'

[Pre-Chorus]

We're all scared to fly, still we try

Learn to be brave, see the other side

Won't you lead me there? Have no fear

Close your eyes, find paradise

[Chorus]

Oh, my, my, my

There's a thousand miles between you and I

Oh, my, my, my (My, my, my)

Just a thousand miles between me and paradise

Oh, my, my, my (My, my, my)

There's a thousand miles between you and I

Oh, my, my, my (My, my, my)

Just a thousand miles between me and paradise

[Post-Chorus]

Oh, paradise

Oh, my, my, my

Oh, paradise

Oh, my, my, my

Oh, paradise

Oh, my, my, my

Just a thousand miles between me and paradise

[Verse 2]

When the dark has gone, the morning's won

We're gonna feel something different  
It will set you free, if you just tell me  
Every secret, I'll listen

[Pre-Chorus]

We're all scared to fly, still we try  
Learn to be brave, see the other side  
Won't you lead me there? Have no fear  
Close your eyes, find paradise  
Paradise, paradise  
Close your eyes, find paradise  
Paradise, paradise  
Close your eyes, find para-

[Chorus]

Oh, my, my, my  
There's a thousand miles between you and I  
Oh, my, my, my (My, my, my)  
Just a thousand miles between me and paradise

[Post-Chorus]

Oh, ah, oh, my, my, my  
Oh, ah, oh, my, my, my  
Oh, ah, oh, my, my, my  
Just a thousand miles between me and paradise
