

# Night Mime – Melanie Martinez

Pull those bloodshot eyes  
Dip them in Visine and light  
Forget my name at midnight  
It's okay, I'm a mime

I'm tongue-tied in the night time  
Silent, sleepless 'til the sunrise  
Claustrophobic with a night light, night light  
I'll just wait here for the sunrise  
Creep and crawl back into my life  
Until then I'll be your night mime, night mime

Stay up late with broken mind  
No text from you but I'll be fine  
I fall asleep with ocean eyes  
I say no words like a midnight mime(mime)

I'm tongue-tied in the night time  
Silent, sleepless 'til the sunrise  
Claustrophobic with a night light, night light  
I'll just wait here for the sunrise  
Creep and crawl back into my life  
Until then I'll be your night mime, night mime

I'm tongue-tied in the night time  
Silent, sleepless 'til the sunrise  
Claustrophobic with a night light, night light  
I'll just wait here for the sunrise  
Creep and crawl back into my life  
Until then I'll be your night mime, night mime
