

Don't Poison Your Heart – Michał Szpak

I still really wonder why
We all did bad things, another fight
This sky is crying
You turn your face
Brothers and sisters we can change this place

Don't poison your heart
Remember, you will feel this magical light
Don't poison your heart
Don't poison your heart

All my angels tell me why
Someone is trying to steal our lives
What is true?
What is fake?
I hear it again and again

Some people say that everything is just for sale
Tell them the way don't let them enter your head
What is true?
What is fake?
Brothers and sisters we can change this way

Don't poison your heart
Remember, you will still just like a child
Don't poison your heart and feel the freedom
Don't poison your heart

Don't poison, don't poison
Don't poison, don't poison

Don't poison your heart
Remember, you will feel this magical light
Don't poison your heart
Don't poison, don't poison your heart

Hmmm
Hmmm
