

# I would die for u – Miley Cyrus

You are everything to me  
And I, I would die for you  
There have been times when I'm up all night  
Crying in the dark, so I sleep with the  
Light On  
I've heard I've got words like a knife  
That I don't always choose just so wisely  
But I see trees and the colored leaves  
When I think about all that we could be  
And when you're gone, time is so slow  
And like the grass, I've watched us grow  
I heard you reap only what you'll sow  
How could I never let you know?  
But you are everything to me  
You're sweeter than candy cane  
Better than any childhood dreams  
I am yours, and you are mine  
I have your heart, I don't even need a ring  
I'd give up all I have, in exchange  
for who I love more than anything  
And when you're gone, time is so slow  
And like the grass, I've watched us grow  
I've heard you reap only what you'll sow  
How could I ever let you go?  
But you, you're everything to me  
And I, I would die for you  
Yeah, I would die for you  
And when you're gone, time is so slow  
And like the grass, I've watched us grow  
I've heard you reap only what you'll sow  
How could I never let you know?
